

As Chair of the National Association of Care Catering, I appeal to you today for your help to raise the profile of our vulnerable older people at risk of malnutrition and dehydration, their services are under threat due to budgetary pressures and lack of awareness across health & social care sectors.

By signing our petition your signature will go some way to helping us fight our cause and improve the quality of life of these vulnerable older people. It may in turn prevent our valued services from further cuts or closure.

Please also help spread the word with colleagues, family and friends as the more signatures we get from people the more we hope those making the decisions will listen to our case.
