AgeingFit

Accelerating innovation for the senior care market

Dorset's Malnutrition Programme

Malnutrition in the UK - £19.6 Billion

- 1.3 million at risk of malnourishment
- 1 in 10 over the age of 65
- 93% live in the Community

Impact

- More ill health issues
- Twice as likely to visit GP
- More Hospital admissions
- Longer Hospital stays

Dorset's Malnutrition Programme

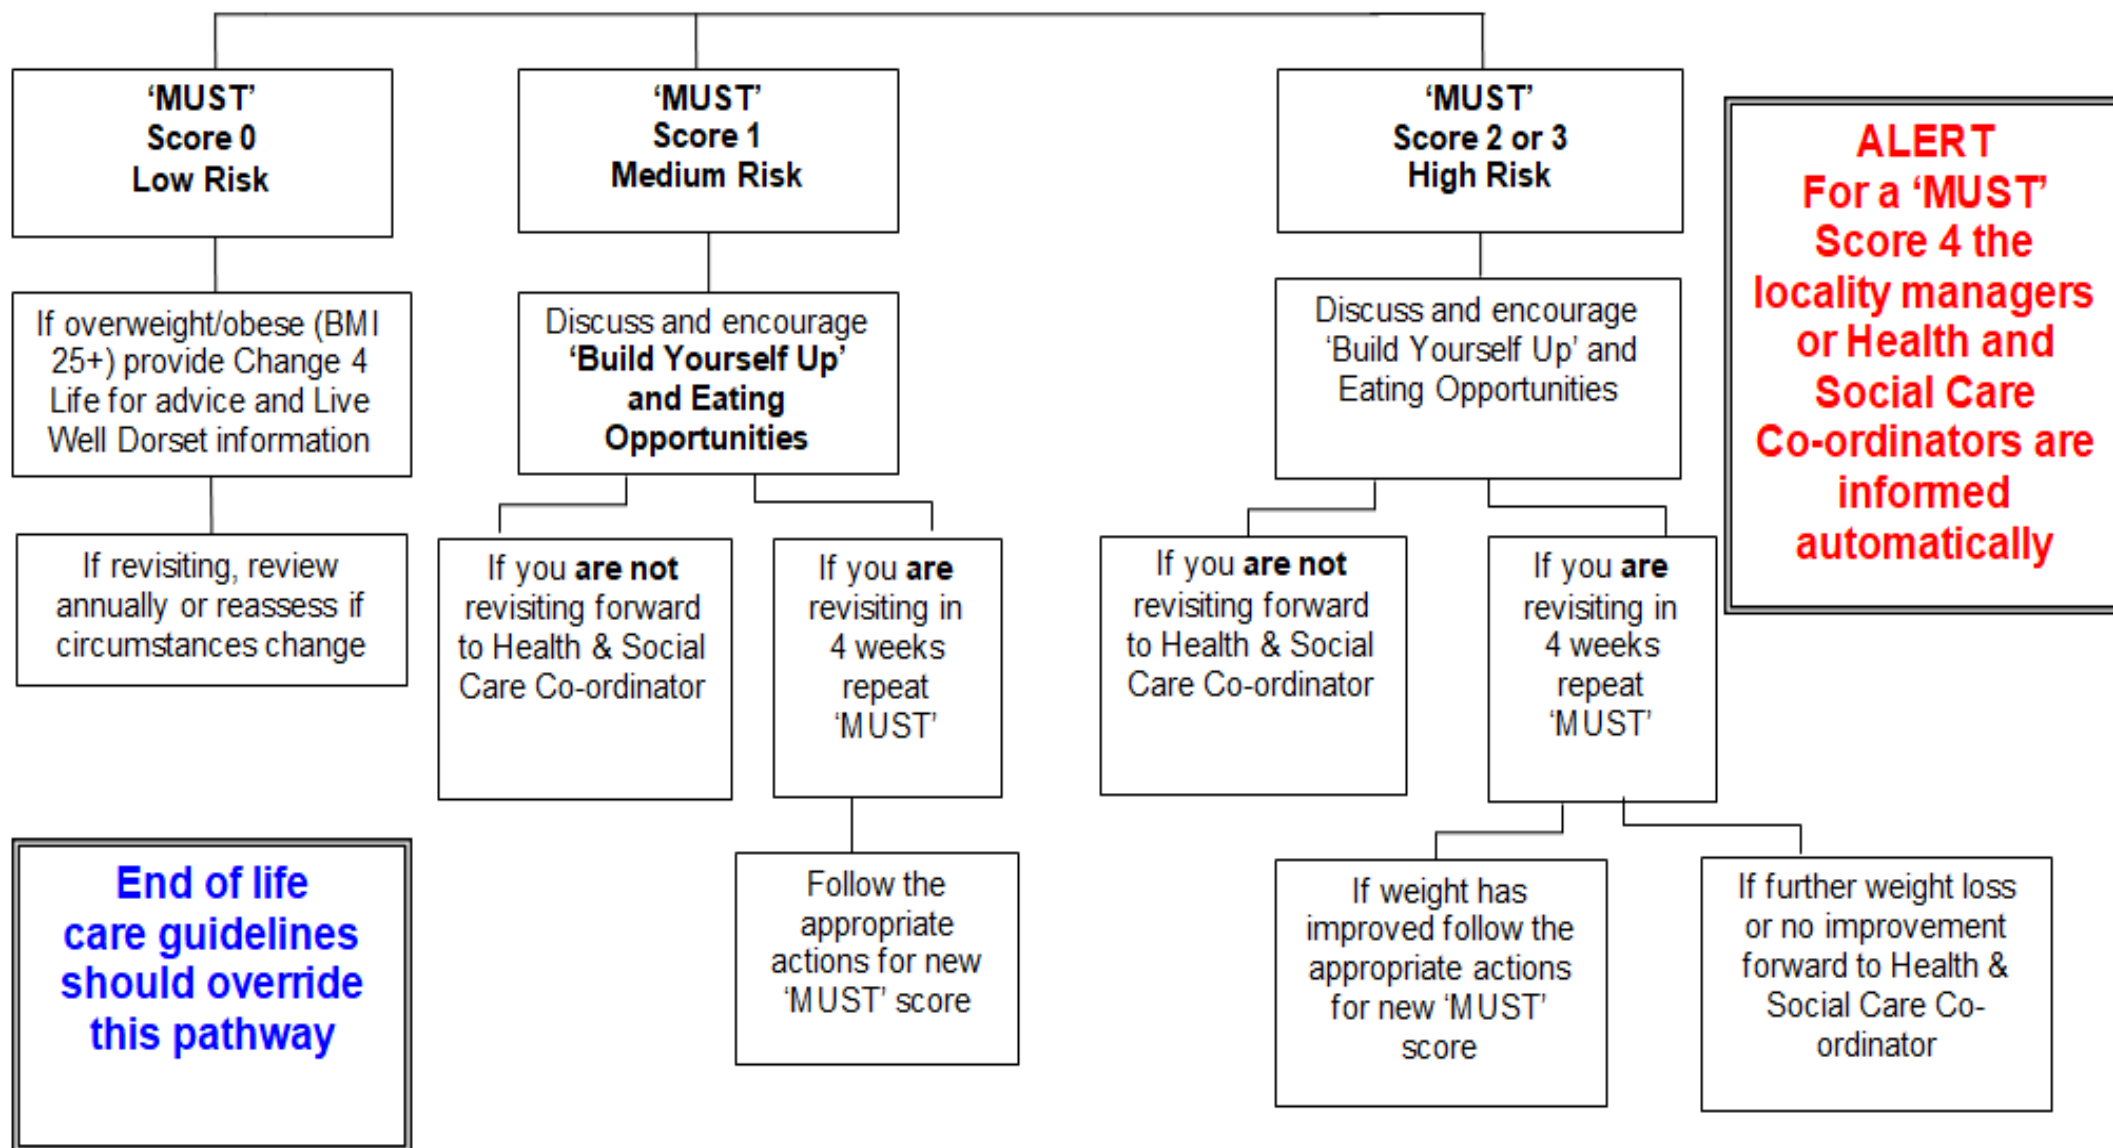

Dorset's Malnutrition Programme

The Programme

- Developed for patients living at home.
- Consists of all front line staff screening for malnutrition, inputting data into a joint electronic system , following agreed care pathways

If a service user is on a special diet for medical reasons that may be affected by following the pathway please seek advice from the GP or Dietitian

Service User: Tom Tester

NHS Number: 111111111

GP Practice* Banks and Bearwood Medical Practice ▾

Dorset's Malnutrition Programme

Programme Data – 2nd Jan 2020 – 21st Jan 2020

TOTAL 1077 Screenings

Nos	“MUST” score	Risk
Patients at Risk		
5	4	Very High Risk
14	3	High Risk
172	2	High Risk
<u>121</u>	1	Medium Risk
312 (29%)		

171 E mails automatically generated.

Dorset's Malnutrition Programme

Cost avoidances - Small locality Purbeck 20 month pilot

561 patients screened

154 found at risk (27%)

60 of which experienced a decrease in their "MUST" score

$\frac{\pounds 1447 \times 60}{20 \text{ months}} \times 12 \text{ months} = \pounds 52,092$ cost avoidances per annum

Expected cost avoidances for Dorset 2020 = £500,000
